

# DENSITY

Native Buffalograss

Density® Buffalograss is a native turf that thrives under hot, humid conditions. In periods of drought, one inch of water will keep Density green. Density's superior drought tolerance makes it an ideal choice for home lawns, commercial installations and golf course roughs.

## BENEFITS

SUPERIOR drought tolerance

NATIVE to North America

QUICKER spring greenup than Bermuda

LOW maintenance and fertility requirements

GROWS well in local soils

## CHARACTERISTICS

THIN blade, fine texture

BRIGHT, green color

RECOMMENDED mowing height is 1.5" - 3"
